

Ensuring that residents of San Diego County can access healthcare services & support

A Message from our Board Chair

We have had quite a year at VIM! I am amazed and so very proud at what our volunteers, CEO, staff and supporters have accomplished during the year. The fact that we only have two exam rooms yet manage to care for over 2,000 patients, especially during a global crisis, is astounding to the VIM Board.

Leveraging our resources has been the key to our success since we opened our clinic doors in El Cajon in 2006. We continue to offer comprehensive medical care, including primary care, behavioral health, gynecology, acupuncture, chiropractic care, dermatology, diabetes management and a patient/community garden.

The relationships and support we have received from Grossmont Healthcare District, California Association of Free and Charitable Clinics, CVS Cares, Foothills United Methodist Church, and Chapel of the Valley United Methodist Church has enabled us to care for more patients.

We thank them for their generosity and continued support.

Charlotte Ehlund-Potter, MBA, Board Chair

A Message from our CEO

Every day brings both a new challenge and a new opportunity. With the help of our volunteers and supporters, VIM has continued to meet the moment—and, in many ways, to exceed it.

Thanks to our many years of experience in caring for the uninsured, we understand the obstacles and can maneuver around them and succeed.

I believe that Volunteers in Medicine has weathered many storms and knows better than most what support our patients need to focus on their well-being, as well as meeting their unique healthcare challenges.

In 2023, we will be celebrating 20 years as a non-profit organization. Two decades ago, two physicians, Doctors Bradt and Bayne, had a vision of providing free healthcare to the uninsured. We continue to support that vision to help our patients thrive.

We thank all of you who walk that path with us whether it is financial support, volunteering, or dedication to our mission.

May we have eyes to see those rendered invisible and excluded, open arms and hearts to reach out and include them, healing hands to touch their lives with love, and in the process, heal ourselves.
